Dear Pamela Monroe,

As a resident of New Hampshire I demand the SEC will reject Northern Pass's certificate.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment and economy in New Hampshire. The transmission line also will not serve our state, as it merely passes through New Hampshire. AND the towers will be in place long after they are useful. No one is going to remove them!

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,
Christina Weissbrod
